
Numen awarded at the European Investment Fund^(*)

EIF is a specialist provider of risk finance to benefit small and medium-sized enterprises (SME) across Europe, EIF is part of the EIB Group.

In order to reinforce the activity related to the net asset value and underlying portfolio data, EIF was looking for a suitable service provider, specialized in data collection and administration, which will assist the MIBO-ETPS division in performing primary input of and controls on data received from Fund Managers.

Numen, via its branch Numen Europe, has been awarded by the European Investment Fund for the provision of data processing tasks related to the equity activity of the EIF, through a 4-year service contract (with a possible extension up to maximum 3 years).

This awarded contract represents a total value of EUR 4 857 142,86 over the first 4 years.
